

THE LAST OF US

Crisis

Written by: Santiago Valdez

Letter To Survivors:

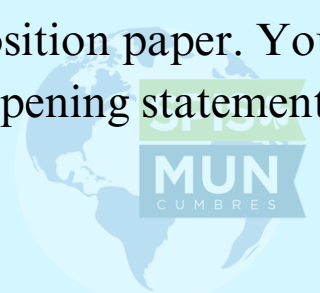

Hello, people of the new world. It is a pleasure to have you here in this meeting to find new ways for our survival of the fungus CORDYCEPS which invaded SPIS MUN 2025 and the world we know as Earth. I would like to introduce my right hand, Santiago Plascencia, who will be our director, and myself, your moderator, Santiago Valdez. We shall consider and discuss your experiences through navigating our post-apocalyptic world that died 20 years ago.

Survivors, we pray that you appreciate the gravity of our condition. Your ideas and cooperation are fundamental since this is an attempt to understand the Cordyceps fungus and seek ways of defeating it.

We hope you manage to survive this meeting and we wish you good luck. As your moderator, I wish all of you to achieve the goals you want in this new world.

Now that you know everything, I hope this information has become helpful for your position and your ideas regarding future preparation for this committee. Remember, it is a crisis committee, you will depend on most of your skills to process and relate solutions, that's why you are here. If you have any questions, you can obtain more information at my Gmail attached below. I wish you the best of luck and lots of success. Also, remember to have a lot of fun while being with you and good luck.

Extra: Remember that here you will not have to do a position paper. You only have to make an opening statement.

Committee Overview:

The year was 2003 and the Cordyceps began in Jakarta, Indonesia. The Cordyceps is a fungus that infects ants and any other invertebrate. In this universe, the Cordyceps also affect human beings by turning their body against their will. This fungus spreads across the body and controls it while the only thing that's left of the human is his brain but still infected. The fungus started to spread on the entire world making almost everyone a zombie. 20 years later roughly 60% of humanity was either killed or infected by the fungus. After the events, there have been several groups that either kill the people they don't know or make them fight for their lives. One of the groups in this new world is FEDRA which is killing people but also trying to find a cure to save what's left of humanity. The story is that Joel Miller (an annex soldier and father) needs to go to Salt Lake City to transport a girl (Ellie) FEDRA supposes that she is immune and that they can get a cure for her. Joel and Ellie had so many adventures trying to get to Salt Lake City and they started bonding with each other. In the end, when they got to the hospital. Joel found out that to get the cure, they needed to kill Ellie. Joel refuses and starts killing everyone in the hospital including the doctor that was going to make the surgery. Joel saved Ellie and they both escaped from the hospital he decided to lie to Ellie saying that there was no cure for the infection and that everything wasn't worth it.

15 years passed after those events and there's a new faction called Wolves where there's someone named Abby. She and her friends Owen, Mel, and Manny are looking for Joel because, in the hospital, the doctor who was gonna do the surgery was Abby's dad and since Joel killed the doctor Abby wants revenge. Meanwhile, Joel and Ellie are now living in a small town with Tommy (brother of Joel) Maria (wife of Tommy) Dina (Ellie's friend) Jesse friend of Ellie and the girlfriend of Dina,) and more civilians. One day Joel went out to patrol with Tommy to see if they weren't infected nearby. Joel finds Abby who was being attacked by Banan infected. Joel saves her and Abby takes him and Tommy to her place, which is a house. Inside Abby and her friends attack Joel and Tommy and Abby ends up killing Joel. In those events, Ellie was looking for Joel because Jesse told her that he was missing. Ellie then goes to the house where Abby wishes to see how Abby killed Joel. After that Abby and her friends go to Seattle and Ellie promises that she will get revenge. She went with Dina since Maria told Ellie and Dina that Tommy also went to get revenge on Abby. Ellie, with the help of Dina, goes to Seattle to find Tommy and to kill Abby. In that mission Jesse also goes to Seattle, to find Tommy. Ellie.

Committee Overview:

The group of friends join together to find Tommy and kill Abby. In the meantime, Abby was on a mission because they couldn't find Owen. While looking for him, Abby found a new group called Seraphites. Abby is captured but then rescued by two traitors of the Seraphites named Yara and Lev. The three of them escape and find Owen in an aquarium with Mel. Everything was going well. Abby one day went with Manny to a bay and suddenly they were being attacked by Tommy. He killed Manny shooting him in the head and Abby managed to throw Tommy to the sea. After that, we see that Lev went to where her mother was back on an island that was full of Seraphites. Yara and Abby go to the island to rescue Lev. Abby and Yara find Lev with his dead mother, the three of them try to escape but then the leader of the Wolves wants to kill the Seraphites since they are at war. Yara shoots the leader and the rest of the Wolves kill her. Abby and Lev escaped from the island and when they returned to the aquarium she saw that Owen and Mel were dead. The reason that happened is because hours before, Ellie managed to get to the aquarium and interrogate both of them. Ellie was pointing at Mel with a gun but Owen stood up for her and he got the shot, then Mel tried stabbing Ellie but she returned the knife to Mel. Ellie tried to find something but she realized that Mel was pregnant by Owen. Ellie cries so hard but then she gets intercepted by Jesse and Tommy. Back in the present, Abby sees their friend dead and wants some revenge. Ellie left a map that had the location where she was staying, a theater. So Abby and Lev go to the theater. In there Abby kills Jesse and shoots Tommy. Ellie and Abby fight backstage but Ellie is about to die. Dina tries to save Ellie but she gets brutally attacked. Abby is about to kill Dina but Ellie tells her that she is pregnant. Abby still wants to kill but when she sees Lev she leaves her with Ellie.

Committee Overview:

In there Abby kills Jesse and shoots Tommy. Ellie and Abby fight backstage but Ellie is about to die. Dina tries to save Ellie but she gets brutally attacked. Abby is about to kill Dina but Ellie tells her that she is pregnant. Abby still wants to kill but when she sees Lev she leaves her with Ellie.

Committee Overview:

A few months have passed and Ellie and Dina are leaving together. Then Tommy goes to Ellie saying to her that Abby is still alive and she was found in Jackson and she got captured with Lev. Ellie decides to go but Dina refuses since she might not come back. Ellie goes to Jackson where she was looking for Abby. In there she got bitten by a clicker so she started feeling weak. Finally she finds Abby tied to a cross on the beach. Ellie took her out of the cross and walked to the beach with Lev since there was a boat. The three of them were about to escape but then Ellie got a memory of Joel so she threatens Abby to fight her or she will kill Lev. Abby and Ellie fight for their lives but Ellie then got another memory of Joel where he said that revenge is not always a good thing, what is a good thing is we're his family is at. Ellie leaves Abby and lets her and Lev escape in the boat. Ellie returns to the house and finds that Dina left the day after Ellie went to Jackson. Ellie enters and she sees that everything is gone except for a guitar that Joel gave to Ellie. Ellie then starts playing the guitar and everything ends

Preparation:

For you survivors to be prepared for this meeting of the new world. You need to know what we're up against. You need to know everything about this pandemic, the fungus, and most importantly the infected. I'm gonna give you all the information about these infected.

You also need to know where it originally came from and of course your story. You need to know everything you have done in these 20 years.

Types of Infected:

Runners: They were infected for 2 days to 2 weeks. They are known for their high speed and ways of attacking. The way of defeating them is to attack them from behind, melee, and shoot them.

Stalkers: These have been infected for 2 weeks to a year. They are on the eye only since the fungus grows in his head. They are very sneaky and they attack in the dark. You can stop them by maintaining distance either by running, hiding, or a melee attack.

Clickers: These are more advanced than others. They have been infected for a year or more. Since the fungus grows in his head, the fungus makes them go blind but it also makes their sense of hearing super advanced. They can hear from miles away and with their little mouth they can rip your internal organs. The way of defeating them is with a knife or with a revolver.

Bloaters: This one is where things get serious. They've been infected for several years. The fungus has covered their entire body which has a huge upgrade. They are also blind but they can throw you like bombs of the fungus which makes them infect your body. You can defeat them by using fire weapons such as Molotovs or a flamethrower.

Shambles: These are like the bloaters. The only difference is that instead of throwing bombs, they explode themselves releasing the virus in the air. They have been infected for more than 5 years. They can be destroyed by killing them with mines or pipe bombs.

Rat King: This is the last and the most dangerous type of infection. It's been infected since day one that started everything. They can release several runners to attack. The runners are stuck in their bodies making it the most dangerous one of all. The only way to defeat it is to attack all the runners that he releases so it can't find a way of attacking you. Instantly kill him by putting mines or using a flamethrower and Molotov.

Quorum:

- Joel Miller
- Ellie Williams
- Tommy Miller
- Marlene
- Tess
- Bill
- Henry
- Sam
- David
- Sarah Miller
- Riley Abel
- Maria Miller
- Abby Anderson
- Dina
- Jesse
- Lev
- Yara
- Owen Moore
- Mel
- Manny
